The Children's Nutrition Research Centre, is proud to present "The rise and rise of prebiotics and probiotics" symposium.

The symposium is an essential event for all clinicians and allied health professionals who value learning of the most up to date recommendations relating to this important topic.

The rise and rise of prebiotics and probiotics will cover both theoretical and practical aspects of key topics in this burgeoning area, including:

- The role of pre- and probiotics in allergy
- Probiotics in the preterm infant
- Synbiotics
- Designing diets rich in pre- and probiotics
- Hot topics
